

1. **Identify the main components of the system.**

2. **Describe the function of each component.**

3. **Explain the interactions between components.**

4. **Discuss the advantages and disadvantages.**

5. **Summarize the overall system.**

6. **Provide a conclusion and future work.**

## 2. **System Architecture**

1. **System Overview**

2. **System Requirements**

3. **System Design**

4. **System Implementation**

5. **System Evaluation**

6. **System Maintenance**

7. **System Security**

## 3. **System Performance**

1. **System Performance Metrics**

2. **System Performance Analysis**

## 4. **System Security**

1. **System Security Threats**

2. **System Security Measures**

3. **System Security Policies**

4. **System Security Audits**

5. **System Security Incidents**

6. **System Security Best Practices**

7. **System Security Research**

8. **System Security Standards**

9. **System Security Tools**

10. **System Security Frameworks**

11. **System Security Certifications**

12. **System Security Training**
